

# Do you have SEX?

Studies suggest that one in four adolescents has a sexually transmitted infection.

Most are **UNAWARE** that they are infected.

***You could be infected and not even know it!***

If you are:

- 14 or older and
- have access to the Internet

you can receive a **FREE** test kit for chlamydia, gonorrhea, and trichomonas. This kit lets you collect a sample in the privacy of your own home. **It's easy to do and the results are reliable!**

For information about sexually transmitted infections and this **FREE** test kit, visit:

<https://www.iwantthekit.org/>

Scan the QR code with your smartphone app to have a kit mailed directly to you.

The test is free and the time is now. Everyone should be saying....

# "I want the kit!"

This program is available in Maryland, Washington DC, and Alaska. It is sponsored by local and state health departments and Johns Hopkins University.
